RADIOGRAPHERS REGISTRATION BOARD NIGERIA

RRBN NEWS Bulletin

Vol. I No. 7 -Saturday, 31st October, 2026 | MONTHLY |

RRBN Strengthens Operational Capacity with Acquisition of Additional Official Vehicle for Registrar's Office

The Radiographers Registration Board of Nigeria (RRBN) has taken another significant step towards enhancing its operational efficiency with the acquisition of an additional official vehicle for the Office of the Registrar.

The new vehicle is expected to provide improved mobility and logistical support, thereby facilitating the smooth and effective discharge of the Board's regulatory, administrative and institutional responsibilities.

This laudable development underscores the Board's commitment to strengthening its institutional capacity, improving service delivery and creating an enabling environment for efficient administration.

The acquisition also reflects RRBN's continued dedication to providing the necessary resources and infrastructure to support its operations and advance its mandate in the regulation of radiography practice in Nigeria.

This is another positive milestone in RRBN's ongoing efforts to promote efficiency, strengthen institutional effectiveness and deliver on its responsibilities to the radiography profession and the nation.

> "This acquisition reflects RRBN's commitment to strengthening institutional efficiency and providing the necessary support for effective service"

RRBN Conducts Professional Resource Verification Visit to Kashim Ibrahim University, Maiduguri

The Radiographers Registration Board of Nigeria (RRBN) has undertaken a Professional Resource Verification Visit to Kashim Ibrahim University, Maiduguri, Borno State, as part of its ongoing efforts to strengthen the quality of radiography education and uphold professional standards across Nigeria.

The visit was aimed at assessing the availability, adequacy and suitability of essential professional resources, academic facilities, infrastructure and other critical requirements necessary for the effective training of competent radiography professionals.

The exercise also provided an opportunity for the Board to evaluate the University's level of preparedness in meeting the established regulatory standards for radiography training, while identifying areas that may require further improvement to enhance the quality of academic delivery and professional development.

The verification exercise reflects RRBN's unwavering commitment to ensuring that institutions offering radiography education maintain the required standards, provide conducive learning environments and produce graduates equipped with the knowledge, skills and professional competence required to meet the demands of the healthcare sector.

Through regular monitoring, professional assessments and constructive engagements with training institutions, the Board continues to reinforce its regulatory mandate of promoting excellence, safeguarding professional standards and advancing the future of radiography education and practice in Nigeria.

RRBN Registrar Inducts New Radiographers from PAMO University of Medical Sciences, Port Harcourt

The Registrar of the Radiographers Registration Board of Nigeria (RRBN) has formally inducted newly qualified graduands of the Department of Radiography, PAMO University of Medical Sciences, Port Harcourt, Rivers State, into the radiography profession.

The induction ceremony marked a significant milestone in the academic and professional journey of the graduands, signifying their transition from university-based training to the practice of radiography as qualified professionals. It also underscored the importance of professional responsibility, ethical conduct, competence and strict adherence to established regulatory standards in the delivery of quality radiography services.

The occasion further highlighted the critical role of continuous professional development, lifelong learning and commitment to best practices in ensuring effective

healthcare delivery and maintaining public confidence in the radiography profession.

The RRBN congratulates the newly inducted radiographers on this remarkable achievement and wishes them successful and fulfilling professional careers. The Board also encourages them to uphold the highest standards of professionalism, integrity and excellence as they contribute to the advancement of radiography practice and healthcare delivery in Nigeria.

RRBN Registrar Receives Bingham University Students on Courtesy Visit

The Registrar of the Radiographers Registration Board of Nigeria (RRBN) has received a delegation of students from the Department of Radiography, Bingham University, Karu, Nasarawa State, on a courtesy visit to the Board.

The visit provided an important platform for the students to interact with the Registrar and gain first-hand knowledge of the Board's statutory responsibilities, regulatory functions and its pivotal role in maintaining professional standards in the radiography profession in Nigeria.

During the engagement, the students had the opportunity to familiarise themselves with the mandate of the RRBN, particularly its responsibilities in regulating the education, training and practice of radiographers, as well as ensuring compliance with established professional and ethical standards. The interaction also offered valuable insights into the regulatory processes and requirements that guide the transition of radiography students from academic training to professional practice.

The visit further underscored the importance of building a strong relationship between academic institutions and professional regulatory bodies. Such engagements are essential in bridging the gap between classroom learning and professional expectations, while equipping students with the necessary knowledge of the regulatory environment within which they will eventually practise.

The engagement also highlighted the need for prospective radiographers to develop a clear understanding of professional ethics, discipline, accountability, competence and continuous professional development. These values remain fundamental to delivering safe, effective and quality radiography services and maintaining public confidence in the profession.

The RRBN continues to emphasise the importance of early professional orientation for radiography students, noting that awareness of regulatory requirements and professional responsibilities at the formative stage of their careers will contribute significantly to the development of competent, responsible and ethically conscious practitioners.

The Board appreciates the students of Bingham University for the visit and their interest in understanding its regulatory mandate. It also encourages other universities and academic institutions offering radiography programmes to sustain similar engagements with the Board as part of efforts to strengthen professional education, promote regulatory awareness and advance the quality of radiography practice in Nigeria.

RRBN Registrar Participates in AI in Health Summit 2026, Reaffirms Commitment to Technological Innovation in Healthcare'

The Registrar of the Radiographers Registration Board of Nigeria (RRBN) has participated in the AI in Health Summit 2026, a significant gathering of healthcare professionals, policymakers, technology experts, researchers and other stakeholders focused on exploring the transformative impact of Artificial Intelligence (AI) on healthcare delivery.

The summit provided an important platform for discussions on emerging technological innovations and the growing application of Artificial Intelligence in different areas of healthcare, particularly medical diagnosis, diagnostic imaging, clinical decision-making, patient management and the overall efficiency of healthcare systems.

During the summit, participants examined the opportunities presented by AI in improving the accuracy and efficiency of medical services, enhancing diagnostic capabilities, supporting healthcare professionals and expanding access to quality healthcare. Discussions also highlighted the need to address challenges associated with the integration of AI into healthcare, including data protection, patient privacy, ethical considerations, professional accountability, regulatory oversight and the reliability of AI-driven technologies.

The Registrar's participation underscores the Board's recognition of the growing influence of digital technology and Artificial Intelligence in shaping the future of healthcare, particularly in medical imaging and radiography practice. As technological advancements continue to transform the delivery of diagnostic services, it has become increasingly important for regulatory institutions to remain informed, proactive and responsive to emerging developments within the healthcare sector.

For the radiography profession, the integration of AI presents significant opportunities to enhance image analysis, improve workflow efficiency, support clinical interpretation and strengthen the quality of diagnostic services. However, the adoption of such technologies must be guided by appropriate professional standards, ethical principles, regulatory frameworks and the need to safeguard patient safety.

The summit also reinforced the importance of continuous professional development, research, collaboration and capacity building in preparing healthcare professionals to adapt to the rapidly evolving technological landscape. It further emphasised the need for effective collaboration among regulatory bodies, healthcare institutions, technology developers and other relevant stakeholders to ensure that technological innovations are responsibly integrated into healthcare practice.

As the statutory regulatory body responsible for the regulation of the radiography profession in Nigeria, the RRBN remains committed to promoting professionalism, maintaining standards, encouraging innovation and ensuring that radiography practice keeps pace with global developments in healthcare technology.

The Board recognises that the future of healthcare will increasingly depend on the effective combination of professional expertise, technological innovation and responsible regulatory oversight. Its participation in the AI in Health Summit 2026 therefore reflects its continued commitment to engaging with relevant stakeholders and embracing developments that can contribute to improved healthcare delivery, stronger radiography practice and better patient outcomes in Nigeria.

Through engagements of this nature, the RRBN continues to position itself as a forward-looking regulatory institution, committed to ensuring that the Nigerian radiography profession remains relevant, responsive and prepared for the opportunities and challenges of an increasingly technology-driven healthcare environment.

RRBN Completes Comprehensive Renovation of Maiduguri Zonal Office

The Radiographers Registration Board of Nigeria (RRBN) has successfully completed the comprehensive renovation of its Maiduguri Zonal Office in Borno State, reaffirming its commitment to improving institutional infrastructure and enhancing operational efficiency across its zonal offices.

The renovation was undertaken to provide a more conducive, modern and functional working environment for staff, while improving the quality of services and overall experience of radiographers and other stakeholders visiting the office.

The development represents another significant step in the Board's ongoing efforts to strengthen its administrative capacity, improve working conditions and create a more efficient environment for the effective delivery of its regulatory mandate.

Through this initiative, RRBN continues to demonstrate its commitment to institutional growth, infrastructural development and improved service delivery in the advancement of radiography practice in Nigeria.

RRBN Conducts Refresher Course and Central Professional Examination for X-ray Technicians Nationwide

The Radiographers Registration Board of Nigeria (RRBN) has conducted a Refresher Course and Central Professional Examination for X-ray Technicians across Colleges of Health Sciences and Technology in Nigeria.

The refresher course was designed to provide participants with an opportunity to update their knowledge, enhance their professional skills and strengthen their understanding of the scope of practice of X-ray Technicians. The central professional examination, on the other hand, was aimed at assessing their knowledge, competence and readiness to meet the required professional standards.

The initiative underscores RRBN's commitment to continuous professional development, quality assurance and the promotion of best practices in the delivery of radiography services across Nigeria.

Through such programmes, the Board continues to strengthen professional capacity and ensure that X-ray Technicians maintain the knowledge and competence required for effective and quality service delivery.

World Radiography Day 2026

The Association of Radiographers of Nigeria (ARN), Rivers State Branch, proudly invites all Radiographers, Radiography Students, Medical Imaging Professionals, and Healthcare Practitioners to an exciting GLOBAL WEBINAR & MASTERCLASS SERIES 2026.

THEME: UPHOLDING PATIENT CARE AND SAFETY

This is more than a celebration; it is an opportunity to learn, connect, share experiences, strengthen professional excellence, and reaffirm our commitment to safe and quality patient care. Featuring distinguished international speakers, this promises to be an enriching experience you cannot afford to miss!

DATE: 5th – 8th November, 2026

TIME: 7:00 PM (WAT) DAILY

VENUE: ZOOM

Join Zoom Meeting: https://us06web.zoom.us/j/82655874960?pwd=dibBfTNLHQEm4CvFXcFDQZfebWb03u.1

Meeting ID: 826 5587 4960; Passcode: MEGLTD2025

Four days of knowledge. Global perspectives. Professional growth. One united radiography community! Let's celebrate our profession, amplify our impact, and uphold the standard of patient care and safety.

BE THERE! INVITE A COLLEAGUE! SHARE THE FLYER!
